

Here in Roseville, CA K-LOVE means so very much to me. There are so many radio stations that are not uplifting. K-LOVE ministers to me in more ways I could possibly list. I personally know many people who don't go to church and K-LOVE is their church. Don't take that away from people....please. For some, this is their only source of something positive in their lives. Please don't do this to the community. I would wager that it has even kept crime down....and definitely suicides. Think about the repercussions. Thank you.
